**Subject:** EPA Response to Comments Received During Consultation Under the National Historic Preservation Act with Respect to the State of Florida's Request to Assume Administration of a Clean Water Act Section 404 Program

Dear Dr. Parsons:

On September 2, 2020, the U.S. Environmental Protection Agency invited you, the State Historic Preservation Officer (SHPO) in Florida, to consult under Section 106 of the National Historic Preservation Act (NHPA) of 1966, as amended, with respect to the State of Florida's request to assume administration of a Clean Water Act Section 404 program for certain waters. EPA's letter provided the SHPO a weblink to access the documents that were submitted to EPA with the State of Florida's request. On September 15, 2020, your office responded by email and accepted EPA's invitation to consult. EPA and the SHPO's continued communication during the consultation process is summarized in Enclosure A.

Provided in Enclosure B is a responsiveness summary that includes EPA's responses to comments received from the SHPO and the other consulting parties during the consultation process. We are providing the complete responsiveness summary per the request of the Advisory Council on Historic Preservation (ACHP) and agreement of the consulting tribes during a December 14, 2020, meeting. The EPA intends to execute a Programmatic Agreement (PA) with the ACHP, the Florida Department of Environmental Protection, and the Florida SHPO prior to acting on the State of Florida's request and will send the SHPO a copy of the PA once executed.

We appreciate your engagement throughout the consultation process and your important feedback and input on the PA. If you have any questions regarding this matter, please contact me at (404) 562-9345, or have a member of your staff contact Mr. Kelly Laycock at (404) 562-9132 or [laycock.kelly@epa.gov](mailto:laycock.kelly@epa.gov).

Sincerely,

Jeaneanne M. Gettle, Director  
Water Division
